DETAILED ACTION

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

-- The following is a statement of reasons for the indication of allowable subject matter for the listed claims:

Claim 1: The prior art does not show an engaging structure including an engaging projection on the top surface of said side wall section of the housing extending into an engaging opening in the cover plate of the metal shell to prevent relative movement there between in a plane generally parallel to the cover plate and top surface and further including clearance between the engaging projection and the engaging opening to avoid creating residual stresses in the housing.

Claims 6,7 and 8: The prior art does not show the metal securing nail fixed to the insulating housing and the metal shell includes a grounding tab formed into engagement with the metal securing nail to provide a ground potential.

This in combination with all the other elements pertaining to each of the above mentioned claims are reasons for allowable subject matter and the examiner knows of no permissible motivation to combine the prior art such that the subject matter as a whole would have been obvious at the time the invention was made.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

Art Unit: 2833

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
